# iNA REPORTER
## One Click to NGS Analysis Solution

Quality Control

Interpretation & Reporting

Trimming & Filtering

Visualization

Mapping Alignment

iNA Reporter

Functional Analysis and Pathway Enrichment

Variant Calling

Differential Expression Analysis

Filtering & Annotation

## From analysis to Reporting

iNA Reporter starts from the beginning to the end, incorporating bioinformatics standard analytical procedures for sequencing analysis, automated variant annotation to test reporting.

INvision
Precision Medicine

BASIC INFORMATION

INCREASE LAB EFFICIENCY

ACCURATE HEALTHCARE

INTERFACE

# Powerful Software for NGS Data Analysis in Precision Medicine Laboratory

## General

| Test | → | Third party institution | → | Get Result |
|------|---|-------------------------|---|------------|

## INvision

| Test | → | Analyze data in your own lab | → | Get Result |
|------|---|------------------------------|---|------------|

## Our Features

**Convenience**

One click to data analysis and fast report issuance, increasing efficiency

→

**Customization**

Customizable report format to match hospitals and needs

→

**Integration**

Integrated into LIMS system in hospital

INvision
Precision Medicine

# Analyze Data

**Our product provide user to analyze based on customize BED setting file, exploring different opportunity.**

# Result Overview

**Clear and Simple interface provide understandable result overview.**

# Generate Report

**Customize the report for different user.**

# Genomic Databases

**Integrates important genomic databases for information covering gene variants, gene annotation, disease pathogenicity, targeted drugs, clinical trial drugs**

**My Cancer Genome | Cosmic | CIViC | RefSeq | 1000 Genomes | ClinVar**

INVision
Precision Medicine

| BASIC INFORMATION | INCREASE LAB EFFICIENCY | ACCURATE HEALTHCARE | INTERFACE |

# Preferred by Prestigious Medical Centers in Taiwan

**CAP ACCREDITED**
COLLEGE of AMERICAN PATHOLOGISTS

Therapy strategy support
(MPN, Chemotherapy, Transplantation, etc.)

Currently on-service for
**1500/year**
clinical decision of leukemia related diseases

iNA Reporter is validated software by
**CAP certified**
LDTs Lab in prestigious medical center

**INvision**
